About ICRC

Founded in 1988, Integrated Concepts & Research Corporation (ICRC) is a full-service provider delivering a valuable combination of program, construction, and technical management expertise for construction, infrastructure development, and improvement projects. A subsidiary of VSE since 2007, ICRC also provides professional, technical, and business services including engineering support, project oversight, permitting, design, procurement, maintenance, purchasing, commissioning, technical writing, and construction and environmental management.

Established in 1959, VSE is a leading management consulting, engineering, logistics, and professional services company providing engineering, energy, environmental impact, defense services, information technology, and construction management to agencies of the US Government and other Government prime contractors, world-wide.

VSE ranks in the top 100 Federal and Department of Defense contractors doing business with federal government agencies for 2010.

Together, our principles of **Integrity, Agility, and Value** form the foundation for delivering high quality, cost-effective solutions to a global customer base.

Geographic Coverage

ICRC has fully staffed offices strategically located throughout the United States and Pacific Rim including Alexandria, Virginia; Anchorage, Alaska; Tamuning, Guam; and Huntsville, Alabama. We provide services throughout the contiguous states and the District of Columbia, Alaska, Hawaii, Puerto Rico, and any country in which trade is not prohibited by the US Government - subject to negotiation on an individual task order basis.

Engineering Disciplines and Specialties

ICRC's Professional Engineering Services contract (#GS-10F-0097W) is for Construction Management Services, Special Item Number (SIN) 871-7 in the engineering disciplines of civil and mechanical engineering; wherein, the Construction Manager is acting as the owner's agent or consultant. ICRC has experienced professionals offering expertise in all service areas of SIN 871-7, including:

- Preplanning and Programming
- Design
- Procurement
- Construction
- Commissioning
- Testing
- Claim Management Services
- Post-Construction
- General Services

Blanket purchase orders and teaming arrangements can be established with other GSA Schedule holders to meet individualized customer requirements.
